ABOUT US

Core Energy & Infrastructure was incorporated with an aim to address the increasing need of quality Solar products in East & North East states of India looking at the Demand-Supply gap. Initially Core started Supplying quality Solar Modules; On-grid, Off-grid & Hybrid Inverters, Batteries, Solar Mounting structure & other related BoS. Looking at the gap in other important industries of Fire & Safety, Waste Management & Electrical sectors; **Core has started its wings in these verticals with following services:**

- **Fire & Safety:** Besides dealing with Fire & Safety and Disaster Management equipments, with increasing fire incidences, we are offering following services:
 - **Fire Consultancy (Fire Plan, Fire Audit, Supervision)**
 - **Fire Safety Installation, Fire Gadgets and Safety Equipments**
 - **AMC of Fire Tenders, Fire Equipments, Fire Safety Systems in Buildings, Industries, Hospitals and Hotels etc.**
 - **Fire Audit in Apartments, Malls, Banks, Industries, Hospitals and Hotels etc.**
 - **Fire Training and Capacity Building (Safety and Maintenance)**
- **Waste Management:** In order to address the increasing troubles of Municipalities, Communities, Malls, Apartments etc. we are offering best solutions of Compost Machines, Shredders, Incinerators & MSW Plants etc.
- **Electrical:** We also offer best quality Transformers, Switchgears, Cables & Wires, Earthing, LA, Electrical Panels etc.
